News I

- Internal deadline for CMSSW_6_2_X is tomorrow.
 - After today discussion feature freeze will be declared and we will be on bug correction mode.
 - First internal test tag will be made a week from now.
- Would be good to have a meeting next week to check on status of developments
 - I will be in Lisbon so could join LIP people for this.
 - Today meeting as announced will be focused on the current status of the code and on the tests executed.
