*Imperial College London*

# GriN Certification

- GRiN certification is now done and this was more of an exercise of usage of RR3.
  - Now I have admin and expert roles in the RR3 and can therefore can give expert role to new users
  - Other people involved in certification should now go to RR and request expert role (Federico, Pietro, Carlo and Arno) and I will grant it.

# DQM Multi Thread

- New DQM multi thread framework was presented in this weeks DQM meeting by M. Rovere
- Significant changes need to be made to all code on the DQM framework in order to be able to deal with this changes.
- Have a look at the presentation, in the next meeting we need to have a look at some details and make some planing:

<https://indico.cern.ch/conferenceDisplay.py?confId=226671>

# End of my time as L1T DQM Coordinator

- I will be finishing the my time as L1T DQM Coordinator in the end of this year.
- Will continue being a member of this group but as a developer and certification expert.
- Will coordinate/help with the current ongoing projects till they are done.

**Thanks for your work on this important part of  
CMS Monitoring**

# Conclusion

- Certification of GRiN done
- New DQM multi thread framework present
  - Significant changes that need to be planed for and implemented
- Ending my time as L1T DQM Coordinator in the end of 2013
